

SHADY MUSTAFA

FRONT-END DEVELOPER

00201094116785 | Cairo, Egypt | shadymustafa79@gmail.com | github.com/ShadyMustafa

Objective

To obtain a front-end developer position where I can leverage my expertise in creating responsive, user-friendly, and visually appealing websites and web applications using React and modern front-end technologies. I am committed to continuous learning, critical thinking, and collaboration to overcome challenges and deliver exceptional results.

Skills & abilities

- **Front-End Technologies:** HTML5, CSS3, JavaScript, React, Bootstrap
- **JavaScript Libraries/Frameworks:** React.js, Next.js
- **Responsive Design:** Expert in building mobile-first, adaptive websites and web applications
- **Version Control:** Git, GitHub
- **UI/UX Optimization:** Proficient in creating clean, intuitive, and accessible designs
- **Tools:** Visual Studio Code, Atom, Anaconda
- **Languages:** Fluent in both Arabic and English
- **Certifications:**
 - React.js Fundamentals
 - JavaScript ES6+
 - Responsive Web Design

Experience

FRONT-END DEVELOPER | January 2024 – Present | Freelance

- Developed a wide range of responsive web applications and websites using React and modern JavaScript tools.
- Created custom, reusable UI components to ensure efficient and scalable codebases for various clients.
- Collaborated with designers and clients to transform requirements into fully functional web applications.
- Integrated third-party APIs and ensured smooth data fetching, contributing to improved user experience and engagement.
- Delivered SEO-optimized, fast-loading websites that increased client satisfaction and web traffic.

PERSONAL PROJECTS

- **Task Manager App:** A responsive, feature-rich task management application built with React. Implemented `useState` and `useEffect` for state management, along with local storage for task persistence.
- **E-Commerce Product Page:** Developed a fully responsive product page using React and Bootstrap. Focused on delivering a seamless user experience across all devices.
- **Portfolio Website:** Created a personal portfolio website to showcase my front-end projects. The site is built with React and styled-components, focusing on clean design and performance.
- **Weather Dashboard:** Built a dynamic weather dashboard that fetches real-time data from a weather API, displays it using reusable React components, and handles various user inputs.

MILITARY SERVICE | May 2023 – June 2024

- Earned an Excellent Certificate for outstanding performance in various leadership and technical tasks.
- Demonstrated effective problem-solving and collaboration skills in high-pressure environments, which translated well to managing multiple projects as a developer.
- Developed strong communication skills, working closely with different teams to achieve common goals.

Education

FAYOUM UNIVERSITY

Fayoum, Egypt | BS in Mechanical Engineering | October 2016 – June 2022

- Graduated with honors, with an Excellent grade in the final year project on CNC machine design and implementation.

Communication

Consistently nominated to be captain by peer in cross-department projects. Function well in team settings that allow collaboration and opportunities to exercise my strengths in clear, effective communication between teams. Collaboration helps me to understand problems and provide solutions.

Leadership

Regularly took on leadership roles during my military service, managing teams and ensuring successful project completion. My leadership experience enables me to manage front-end projects and guide them to completion with efficiency and precision.
